

WEB SITE – Tables and Adding Images Activity

Open the folder containing the images that were prepared for you today: **LTA Web Images**

View as Thumb Nails so that you can see a preview of each image.

Mouse over each image to determine the following: Image Name, Dimensions, File Size, File Format

As a list, your folder should resemble this:

| Name ▲ | Size | Type | Date Modified |
|--|----------|------------|---------------------|
|  1950sclass | 46 KB | JPEG Image | 3/4/2010 12:56 PM |
|  cameron | 102 KB | JPEG Image | 3/4/2010 11:29 AM |
|  classtoday | 1,363 KB | JPEG Image | 3/4/2010 12:50 PM |
|  computerteam | 2,577 KB | JPEG Image | 3/4/2010 12:53 PM |
|  digginginput | 1,681 KB | JPEG Image | 11/11/2009 10:26 PM |
|  diggingoutput | 44 KB | JPEG Image | 3/4/2010 11:18 AM |
|  drawingpaper | 409 KB | JPEG Image | 3/4/2010 12:52 PM |
|  harry | 106 KB | JPEG Image | 3/4/2010 11:31 AM |
|  highlightingtext | 2,101 KB | JPEG Image | 3/4/2010 12:47 PM |
|  kidslookingup | 5,185 KB | JPEG Image | 3/4/2010 12:40 PM |
|  onarock | 2,871 KB | JPEG Image | 3/4/2010 12:44 PM |
|  raisinghand | 1,116 KB | JPEG Image | 3/4/2010 12:55 PM |

Training Page

Students enthusiastically await the start of the new school day.

Working in pairs, students learn to use the new classroom computers.

Site Search 

Today's Date is 
March 17, 2010

 View Map

Preparation:

1. Choose 6 images in which to optimize so that they will fit properly on the training page (specifics and uploading will follow)
2. Build a new page for your school site named **Training Page**. Leave it inactive.
3. Build a table that is two columns and 6 rows – 0 Border, 5 cell padding and 5 cell spacing. You will be given width requirements for the first column and optimize 6 photos to fit in the left column, entering appropriate text in the right column. Photos and text should align Top-Left.
4. Revise column 1 to a width of 200 pixels. How wide can your photo be?
5. Save your page and go back to your CMS Tools menu.
6. Optimize 6 photos based on the directions supplied through MS Paint. Save them to this same web folder with the name web in the file name (e.g. usingmouseweb.jpg)
7. Insert one photo in each cell of column 1, being careful not to stretch out the size of the cell. Your photos should be in the dimension of no greater than 190 pixels wide – any length. If you measured correctly the table will not change.
8. Make sure the photos and text align to Top-Left of each cell. Add text to the right column.

Complete your page until it looks something like this in Edit mode:
